Seminar in International Business
China – Spring 2019

EWMBA298S.2: SIB China (2 units)

Instructor: Arman Zand

Seminars in International Business ("SIB") are designed to introduce EWMBA student participants to the culture, history and business environment in various countries. Each SIB program focuses on a country and illustrates how business environments vary across cultures.

For SIB China, the spotlight is on **technology** and **venture capital**. The topic to be considered is: "China as a global innovation super power". Through this lens, the class will examine a variety of companies and investors in China. The goal is to develop a broader perspective of innovation in China. You may wish to view last year's syllabus (as a reference only).
