Why talk to a VC about your next big business “idea” when you can show them?

Go from #ZeroToPrototype this Spring 2016

Come learn how to:
build hardware / software
market tests for your next big idea!

Hands-on Rapid Prototyping

THIS CLASS IS UNEQUIVOCALLY HANDS-ON
1. Every class has a 5-minute hands-on activity that will stretch your innovation capabilities.
2. No case studies in this class...you will be too busy building prototypes and market tests.

YOU WILL LEARN TO USE AND HAVE ACCESS TO:
1. 3D Modeling Software
2. 5x 3D printers + plastic
3. Launchrock / Wordpress / Wix / Shopify
4. Google Analytics / Bit.ly / Justinmind
