Connect Android to AirBears2

0. If you haven’t created your AirBears2 Key yet, login to: https://idc.berkeley.edu/mmk to create it

1. Go to SETTINGS > WIFI > choose AIRBEARS2

2. Fill in Identity and Anonymous Identity with your CalNet ID

3. Enter your AIRBEARS2 KEY as your password

4. Click SHOW ADVANCED OPTIONS and un-check CCKM

5. Click CONNECT

NOTE:
- EAP Method should be set to PEAP
- Proxy settings should be set to None
- IP settings should be set to DHCP

If you have questions, or remain unable to connect, please contact: helpdesk@haas.berkeley.edu.
