

## How do I add bConnected (bMail, bCal, bDrive) to myiOS Device?

Step	Procedure
1	Go into your <b>Settings</b> app > then choose <b>Mail, Contacts, Calendars</b> >

A large grey Settings app icon with a red arrow pointing downwards towards the screenshot below.

A screenshot of an iPhone's Settings app. The status bar at the top shows signal strength, Wi-Fi, the time 11:43 AM, and 72% battery. The title 'Settings' is centered. A list of settings categories is shown, with 'Mail, Contacts, Calendars' highlighted in blue and having a chevron to its right. Other categories include Notes, Reminders, Phone, Messages, FaceTime, Maps, Compass, Safari, and Music.

Step	Procedure
------	-----------

<b>2</b>	Select <b>Add Account</b> >
----------	-----------------------------

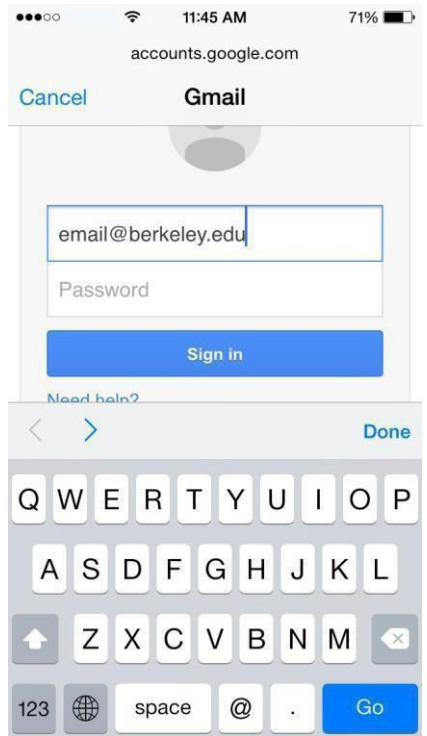

Step	Procedure
------	-----------

<b>3</b>	Choose <b>Google</b> >
----------	------------------------

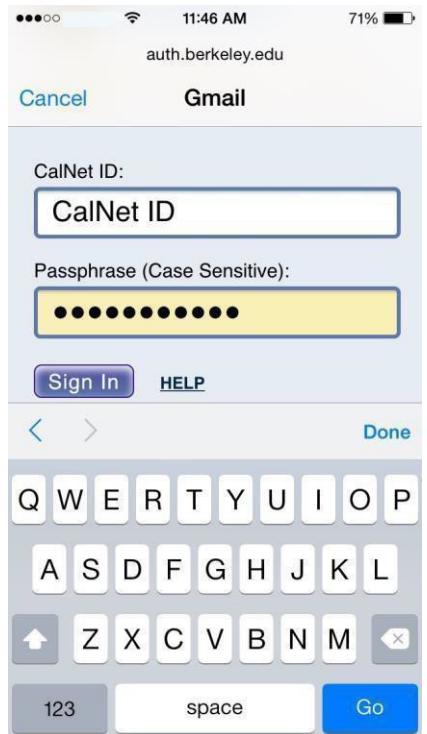

Step	Procedure
------	-----------

4	Enter your <b>@berkeley.edu</b> email address and password >
